Acid Rain Program: Petition for Administrative Review of Determination of Applicability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On October 3, 1996, a petition was filed with the Environmental Appeals Board appealing a determination by the Administrator of the applicability of the Acid Rain Program to the Carson Cogeneration facility in California.

FOR FURTHER INFORMATION CONTACT: Robert Miller, U.S. EPA, ARD(6204J), 401 M St., SW, Washington, DC 20460, (202) 233-9077.

SUPPLEMENTARY INFORMATION: The Carson Energy Group petitioned the Administrator under 40 CFR 72.6(c) to make a determination of applicability of the Acid Rain Program to the Carson Cogeneration facility ("Carson") located near Sacramento, California. A determination was made by the Administrator that Carson is an affected source subject to the requirements of the program. The Administrator's decision was appealed to the Environmental Appeals Board by the Carson Energy Group through a petition filed on October 3, 1996 under part 78 of the Acid Rain regulations. The petitioner does not believe there are any disputed issues of fact and is not requesting an evidentiary hearing at this time.

Dated: October 30, 1996.

Brian J. McLean,

Director, Acid Rain Division, Office of Atmospheric Programs, Office of Air and Radiation.

SUPPLEMENTARY INFORMATION:

I. Background

The Food Quality Protection Act (FQPA), signed into law on August 3, 1996, (Public Law 104-170) amends the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA) to provide greater protection for U.S. consumers, particularly infants and children.

EPA formed the FSAC as a subcommittee under the auspices of the National Advisory Council for Environmental Policy and Technology (NACEPT) to provide a structured environment for exchange of information and ideas on regulatory, policy, and implementation issues. These discussions will assist EPA in the implementation of the new food safety statute and are essential if EPA is to be responsive to the needs of the public and the affected industry.

II. Participation

The FSAC is composed of a balanced group of participants from the following sectors: pesticide user and commodity groups; environmental/public interest groups, including the general public;

federal and state governments; academia; industry; the public health community; and congressional offices.

FSAC meetings are open to the public. Outside statements by observers are welcome. Oral statements will be limited to five minutes, and it is preferred that only one person per organization present the statement. Any person who wishes to file a written statement can do so before or after an FSAC meeting. These statements will become part of the permanent file and will be provided to FSAC members for their information.

Materials related to the Food Safety Advisory Committee are maintained in a public record. These materials are available for inspection from 8 a.m. to 4 p.m. Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

III. Meeting Schedule

The agenda will include: Use of a 10-fold safety factor to protect children and infants; consideration of in-utero exposure for carcinogenicity studies; tolerance reassessment, worker risk issues, EPA's decision logic for risk management and risk assessment, and presentation of USDA programs.

A fourth meeting is tentatively planned for December 4, 1996. Meeting location and agenda topics will be published prior to the meeting. To receive an agenda for this (November 14-15) meeting please write or call Margie Fehrenbach at the address or number listed under FOR FURTHER INFORMATION CONTACT.
